## DX news

### **The VK9MAV story by Andy VK5MAV**

Andy, VK5MAV has now returned home from his recent IOTA DXpedition to OC-267 Diamond Islets as **VK9MAV** and OC-160 Scawfell Island as **VK9MAV/4**.

He sends DX-World part 1 and part 2 of his adventure for you to download.

### **FT3YL Adelie Land, Antarctica update by Clipperton DX Club**

Radio from Adelie Land is very, very, very difficult and more difficult if you're a newbie. François is still in Adelie Land, but he was not able to be active as he wanted. Remember that Adelie Land is very close to south geomagnetic pole, so he has big problems with propagation, modulations are distorted etc ...

Adelie Land is not the coldest Antarctic base, but it is one of the most windy. Often, gusts are around 170 to 190 km/h. To install an antenna able to resist (or to survive...) to this high winds is not easy. Other Antarctic base are less windy; it is easier to install good antennas. <https://dx-world.net/ft3yl-adelie-land-antarctica/>

### **9L1T Sherbro Isl, cancelled**

"Time ago we received by email a copy of our 9L1T licence. After repeated solicitations addressed to the Ministry of Telecommunications of Sierra Leone, in order to obtain the original, we have been informed that the licence was revoked, no amateur radio license should be issued for security reason. We are deeply disappointed, but this matter is totally out of our control. As a result the March 2018 Dxpedition in Sierra Leone has been **cancelled**."
